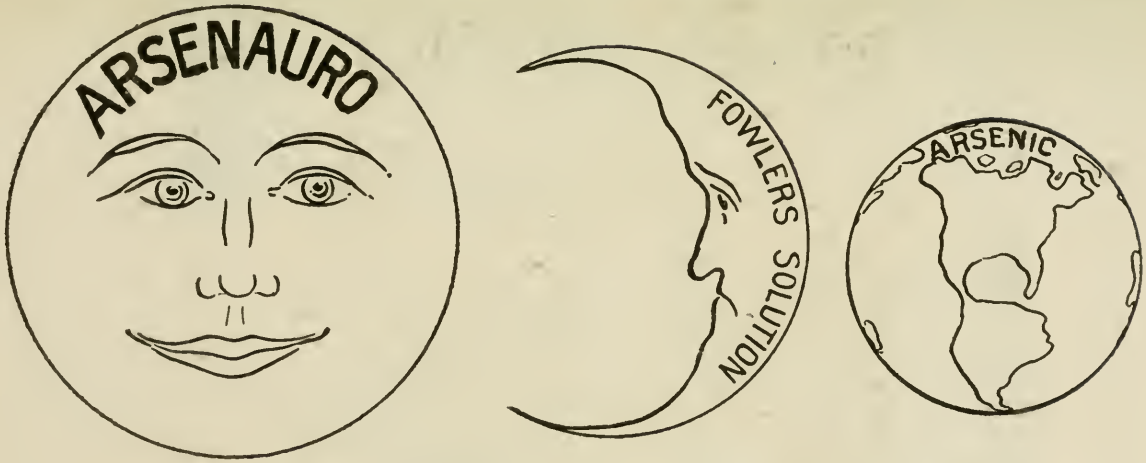
"Wherever arsenic is indicated, arsenauro will produce best results, because it is the most assimilable form in which arsenic has ever been prepared."



Arsenauro (like the Sun) is the most powerful of its kind and just as uniform and reliable in its action.

The same is true of Mercauro as a mercurial.

A Great Mistake

in the treatment of pulmonary phthisis---the administration of any drug which tends to interfere with the patient's digestion. Creosote, when given in the ordinary way, almost always irritates and deranges the stomach. In

Liquid Peptonoids

WITH CREOSOTE

this drug has not only been rendered palatable but also unirritating and easy of retention. The full physiological effects of Creosote, and its favorable influence upon the general condition, are more quickly obtained because of this fact. The Peptonoids also aid in the general upbuilding because of their nutritive value. Each tablespoonful contains 2 minims of pure beechwood creosote and 1 minim of C. P. guaiacol.

MISS ALSTON'S HOUSE,

FOR PRIVATE PATIENTS,

143 West Forty-seventh Street, = New York.

Telephone, 1842-38th St.

Miss A. L. Alston, for nearly eight years Superintendent of Mount Sinai Training School for Nurses, opened, September, 1894, a house for the reception of private patients.

Miss Alston's long and thorough experience will insure the best of nursing and general supervision for those who are in her charge. Great attention will be paid to the careful and appetizing preparation and serving of the food.

The house is supplied with an operating room fitted up with all the appliances for modern surgery. There is a skylight, also a good side-light; an elevator large enough to convey the patients to and from the operating room, and all the requisite requirements of a house of the kind.

All classes of cases, male and female (including maternity cases) will be received, excepting those suffering from contagious diseases or insanity.

Patients will be entirely in charge of their own physician, no house officer being in attendance

The house will be open the entire year.

A registry for nurses has been opened and physicians and private families will be furnished with capable nurses.

Dressings for aseptic surgery furnished to surgeons at moderate rates for private practice.

What is Hydroleine?

It is a pancreatized emulsion of cod liver oil (Lofoten) obtained from fresh livers, and is based on scientific principles.

Why better than other emulsions?

Because it is pre-digested, most thoroughly emulsified, possesses highest nutritive qualities, is palatable and does not disturb delicate stomachs. Increases the appetite. Improves digestion. Proved by clinical tests to be more easily digested and assimilated than any other emulsion. Literature and samples sent to physicians on application. Sold by druggists.

BOVININE

A CONDENSED FOOD

BUT MUCH MORE. There are other Condensed Foods. BOVININE IS ALSO LIVING FOOD. In this it has no rival outside the arteries of the living body. It is drawn from the animal arteries ALIVE, AND KEPT ALIVE; and in the living body its only equivalent exists—the vital fluid itself: THAT IS BOVININE.

A WONDERFUL CONSERVE OF THE LIVING BLOOD CORPUSCLES,

or Tissue-Forming Cells of Life, preserved without the use of heat or any other agent impairing their vitality; visible in any drop of Bovinine under the microscope in all their integrity, and known in thousands of cases to have entered **directly** into veins drained of blood by hemorrhage or innutrition with prompt replenishment and revival from a dying condition. This has been done, not only by the avenue of the stomach, but by rectal enema, but even wasted and ulcer-eaten flesh has been regenerated by topical and hypodermic treatment, and the encroaching degeneration of the tissue not only arrested but driven back and driven **out** by the vitalizing power of this Living Blood-Supply, so that great ulcers, which had for years resisted all medicaments, have been entirely healed by the local application of this eagerly absorbed nutrient matter.

All physicians owe it to themselves and to their patients to keep in view the unparalleled life-saving capabilities of BOVININE, the administration of which is practically nothing less than

THE ECHO FARM CO.,

ANNOUNCEMENT!

Are you aware that Preservatives—so called—are being put into milk?

They are, and among them are boratic acid; also a preparation from wood alcohol-formaldehyde!

Is it safe, is it wise for a child to take even small quantities of such into its stomach at frequent intervals? No!

Are you sure that little patient is not getting such, thereby thwarting your skill?

The SEAL (dated) of **THE ECHO FARM COMPANY**

is a guarantee against such deception. Ice is the only preservative used. The president will assure anyone on that point. The Company also grinds at Litchfield, Conn., on its Farm, and supplies an olden-time Honest Graham Flour, which "smells of the old mill," also the bread itself. This with the milk is an ideal food for children.

AN EVENT OF MUCH IMPORTANCE

AMMONOL

THE STIMULANT · ANALGESIC · ANTIPYRETIC · ETHICAL

Is an Ammoniated-Phenylacetamide product of Coal Tar, and differs from the numerous similar products in that it contains Ammonia in active form. As a result of this **AMMONOL** possesses marked stimulating and expectorant properties. The well-known cardiac depression induced by other Antipyretics has frequently prohibited their use in otherwise suitable cases. The introduction of a similar drug, possessed of stimulating properties, **is an event of much importance.** **AMMONOL** possesses marked anti-neuralgic properties, and it is claimed to be especially useful in cases of dysmenorrhœa.—*The Medical Magazine, London.*

AMMONOL behaves as a stimulent as well as an antipyretic and analgesic, thus differing from other coal-tar products. It has been used in the relief of rheumatism and neuralgic pains, and in the treatment of the sequelæ of alcoholic excess. **AMMONOL** is also prepared in the form of salicylate, bromide and lithiate. The presence of Ammonia in a more or less free state gives it additional properties as an expectorant diuretic and corrective of hyperacidity.—*London Lancet.*

Ammonol may be obtained from all Leading Druggists.

Enables nursing mothers whose milk is scanty or poor to yield a copious supply of excellent milk in three days. Nutrolactis acts by improving the mothers' nutrition; it does not force dry mothers to produce good milk copiously, it enables them to do so. Formula on every bottle. One full-sized bottle (16 oz.), value one dollar, sent free to any physician paying express charges on delivery.

Prepared by THE NUTROLACTIS CO., Office, 36 East 14th St., New York City.

"VIN SHARTONE"

Dr. Dadirrian's

TONIC WINE.

A Combination of the Best Quality of Cinchona Bark with a Choice Old Wine.

The merits and medical properties of Cinchona Bark, as well as wine, having been well known to the Medical Profession for centuries, we deem it unnecessary to dwell upon them at length. It is, however, proper for us to emphasize the fact that the ingredients of which Vin Shartone is composed are not only up to the highest standard of purity and excellence, but are skillfully and scientifically compounded, so as to develop and preserve in a degree never before attained all of the valuable qualities and properties of Cinchona Bark without the unpleasantly bitter taste.

Vin Shartone is a most effective Tonic, entirely free from the pernicious after-effects that accompany many of the so-called Tonic Wines now in use.

Vin Shartone for obvious reasons may also be indicated as a valuable adjuvant in the treatment of Malarial Diseases, both as a preventive and cure.

Vin Shartone, on account of its pleasant and agreeable taste, can be easily administered to children.

Vin Shartone is already being prescribed by leading physicians with satisfactory results.

VALUABLE AS AN APPETIZER.

Dose:—A half wineglassful or one ounce (each dose containing 6 grains of the bark) 3 or 4 times daily, as indicated.

original Fermented Milk Food Matzoon.

CALL FOR ZOOLAK

to obtain the only genuine.

ZOOLAK is made from pure sterilized cow's whole milk only. It is a most easily digested and nutritious food, and a refreshing beverage both in health and in sickness.

ZOOLAK does not curdle like ordinary milk and is readily retained by the most delicate stomachs which reject nearly every other form of nourishment.

ZOOLAK is twice as nourishing as Kumyss without containing any carbonic acid gas.

To be made like Kumyss mix Zoolak half and half with any carbonated water.

Sold by the glass and by the bottle at all druggists.

Trophonine

a palatable and nutritious liquid food, contains the nutritive elements of beef, wheat-gluten, and nucleoalbumins, so prepared as to be readily absorbed and aid almost immediately in the process of reconstruction. It furnishes the sick with the largest possible supply of nourishment and with the minimum tax on the digestive organs.

Protonuclein

by increasing the number of Leucocytes, destroys toxic germs, increases the inherent resistance to disease, quickens glandular activity, arouses the nutritive forces, gives tone to the system, and stimulates cell-life throughout the organism.

Peptenzyme

is the only perfect digestant. It digests every variety of food. In physiological activity it presents the active and mother ferments of the entire group of digestive organs. It aids digestion by furnishing an additional supply of protoplasmic material out of which active ferments are elaborated, and perfects the process by increasing cellular activity.

SPECIAL PROTONUCLEIN TABLETS

They are prepared without excipient, contain nuclein and other organic substances derived from the animal organism, and are especially indicated in diabetes, phthisis, etc.

Dear Doctor: In placing before my medical friends this Laboratory, instituted for the purpose of making Microscopic and Chemical Analyses for the Physicians' and Surgeons' clinical diagnosis of diseases, I would say my work through the use of chemical and microscopic methods is regarded as an inquiry into the operations of poisons, introduced from without or generated within the economy, and the part they play in health and disease.

The clinical matter of my Laboratory work covers the Examination of the Blood, the Secretions of the Mouth, Gastric Juice, Feces, Nasal Secretion, Sputum, Urine, Transudates, Exudates, Cystic Contents, Semen, Vaginal and Urethral Discharges, Milk and all Bacteriological work.

For a more comprehensive description of my work send for prospectus.

Should any physician desire to grow a culture specimen they will find my incubator accessible day or night, free of charge, but where staining, mounting and reports are desired a nominal cost will be made.

In conclusion, should any physician demand such work as the above examinations, or as recorded in my prospectus, I would deem same a privileged opportunity, with assurance of perfect satisfaction, at a nominal cost.

Maltine

MALTINE is not merely "malt," nor is it a mere "extract of malt," nor an "essence of malt."

MALTINE is the most highly concentrated extraction of all the nutritive and digestive properties of Wheat, Oats and Malted Barley.

It has stood alone and unrivalled throughout the world in its therapeutic field for more than twenty years, despite the most strenuous efforts of the ablest pharmaceutical manufacturers to produce a preparation approaching it in medicinal value, elegance, palatability and stability.

"Malt" is not "MALTINE."

"Extract of Malt" is not "MALTINE."

"Essence of Malt" is not "MALTINE."

"MALTINE" must be designated to get "MALTINE."

MEDICAL DIRECTORY

~~OF THE~~

CITY OF NEW YORK.

PUBLISHED BY THE
MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

PRICE, $1.50.

WYNKOOP HALLENBECK CRAWFORD CO., PRINTERS,
NEW YORK AND ALBANY.
1900.

PREFACE.

The essential features of a Medical Directory are a complete list of the names of all legally qualified physicians, together with the location of their offices and the office hours when they may be consulted. The colleges from which they graduated and the date of such graduation are valuable items. The lists should also be arranged for convenient reference.

In this book the features here enumerated have been secured as thoroughly as possible, in the various borough registers and in some of the cities of New York State and the adjoining States of New Jersey and Connecticut.

In the other towns and villages the school of practice has been indicated, but experience has convinced us that other data are difficult to obtain.

In the lists of members of the medical societies of the counties of New York and Kings, the membership in city societies and hospital appointments in New York hospitals only are given. This restriction is necessary to prevent enlarging the volume beyond the size deemed most desirable for ready reference.

The editor desires to renew the suggestion that every one who uses the Directory should not only promptly supply information concerning his own name, but also reports of any other physicians whose names may have been omitted from lack of reliable data concerning them.

The advertisements have been so selected as to form a complete guide for every line likely to be needed by physicians.

The co-operation of members of the profession has been more generous than in former years, and the editor hereby acknowledges his obligation to them.

EXTRACTS FROM THE BY-LAWS OF THE MEDICAL SOCIETY OF THE COUNTY OF NEW YORK.

"The annual meeting of the Society shall be held on the fourth Monday in October.

"Stated meetings shall be held on the fourth Monday of every month, except in the months of June, July, August and October.

"Nominations for the officers, censors and delegates, to be elected at the annual meeting, shall be made at the stated meeting in September.

"Members whose dues are unpaid shall not be candidates for any official position in the Society, nor shall they be entitled to vote.

"Every candidate, before signing the By-Laws, shall be required to pay an initiation fee of two dollars, together with the current dues, within three months from the date of his election.

"The Comitia Minora shall recommend no applicant for admission to membership unless he be a graduate from a medical college in good standing or a licentiate of a regular unsectarian State or County Medical Society of this or any other State; or, if his diploma or license be of sectarian character, unless the applicant declares in writing his or her abnegation of sectarian principles and practice.

" Members whose dues or assessments are unpaid for one or more years, or who are under suspension, shall not be eligible for nomination or election, or appointment for any official position in the Society, nor shall they be entitled to vote *or to receive the notices or publications of the Society.*"

ADDRESS MEDICAL REVIEW OF REVIEWS,

252 Madison Avenue, NEW YORK.

"THE INDEX of Literature in the *Medical Review of Reviews*, New York City, has been elaborated on, all the articles it notes classified. It is a great improvement, and will aid the student and investigator to keep up with the literature on any subject in which he may be interested. It covers the field well."—*Journal of the American Medical Association, Nov.* 18, 1899.

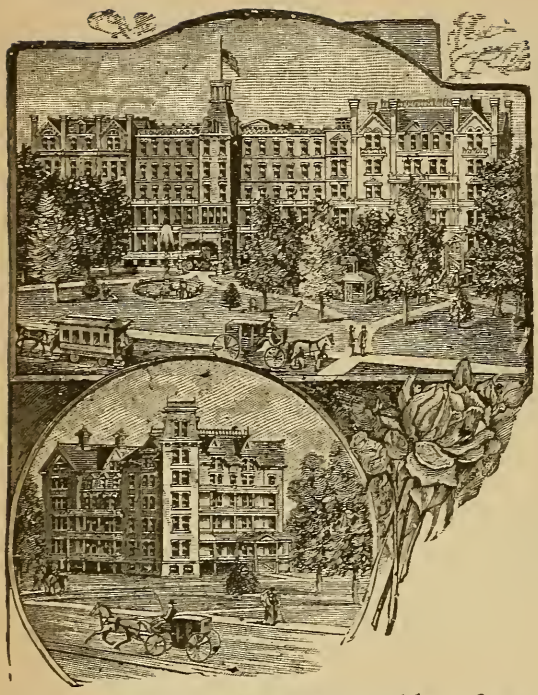
LADY ATTENDANT. Open Sundays 11 to 1.



Doctor:

We respectfully invite your attention to the fact that the Battle Creek Sanitarium is a good place for those cases of chronic indigestion, neurasthenia, insomnia, gastric and intestinal catarrh, constipation, and pelvic disorders which do not yield to the usual measures capable of employment at home.

The advantages afforded by a first-class physiological laboratory for the investigation of stomach disorders, blood examinations, etc., an admirably equipped diet kitchen, a scientifically conducted gymnasium, elaborate and elegant facilities for scientific hydrotherapy, steam heated, thoroughly ventilated buildings, three hydraulic elevators, a corps of twenty thoroughly trained physicians, 250 nurses, a salubrious location—offer an exceptionally favorable opportunity for the successful treatment of chronic invalids of all classes.

Sanitariums under the same management are located at St. Helena, Cal.; Boulder, Col.; Guadalajara, Old Mexico; and Chicago, Ill.

For circular and further information, address

New Nut Products.

Nuts furnish an essential constituent of vegetarian diet. In their natural state, they are difficult of digestion, and can not be used by many persons; but the Sanitas Food Co. has discovered a method for rendering nuts easily digestible by even the most delicate stomachs.

Nuttose

Is a pure product of nuts, of the consistency of cheese, and has somewhat the appearance and flavor of cold roast mutton. It may be used in a variety of ways, and is a perfectly healthy substitute for cold sliced meat.

Make Fat and Blood.

Bromose

Makes fat and blood. This product is made by malting nuts, and is especially useful as a food for persons who can not digest starch.

Send 25 cents in stamps for samples. Circulars supplied on application. Address:

Sanitas Food Co., 65 N. Washington St., Battle Creek, Mich.

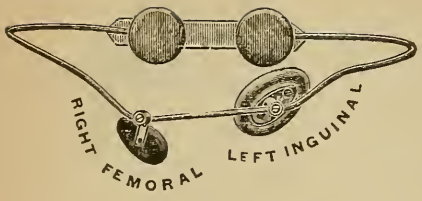
A New Food for . . . Diabetics.

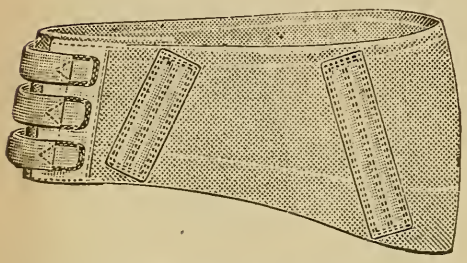
THERE is probably no single dietetic need which has received more attention, with fewer satisfactory results, than the preparation of a bread for diabetics.

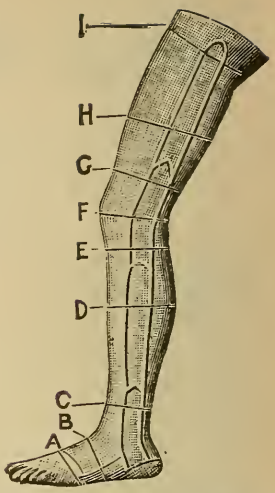
We have at last solved this difficult problem by producing a bread made by combining pure gluten and nuts.

We shall be glad to send free samples to any physician or trained nurse who may desire to test this new food. Others will please send a two-cent postage-stamp.

Sanitarium Health Food Co., - Battle Creek, Mich.







For more than twenty years, with the late Daniel Pomeroy, I fitted several trusses each working day. I will guarantee to comfortably and satisfactorily fit patients, subject to the physician's approval, or cheerfully refund any money they may pay me.

ELASTIC STOCKINGS AND SUPPORTING BELTS I make to measure, and hence to fit. Patients can be measured and fitted at their own homes, by either men or women attendants, if the physician so desires.

I am in my office from 8 A. M. to 6 P. M. every week-day, Wednesday evenings from 7.30 to 9, and Sunday mornings from 9.30 to 11.

"I am constant as the northern star,
Of whose transfix'd and resting quality
There is no fellow in the firmament."
—*Julius Cæsar.*

THERE are few useful products that have been more numerously and less successfully imitated than

"BRUSH'S KUMYSS."

THE same word, often the same lettering as directions on the label, the same colored ink, and sometimes a device that imitates closely the trade-mark, may cover a base imitation.

Only the word "BRUSH" will make your order definite.

Infant Feeding.

EXCEPT that derived from the *healthy* mother's breast, the best food for an infant is the milk of *healthy* cows, if these animals receive proper food and care.

EVERY common-sense detail that it is possible to observe is practiced in Dr. Brush's milk dairy. Nothing but the whole grist of the best grain—no refuse of any description—is used as food. All the care and attention to the cows is given with an intelligent desire to produce good milk.

IT is delivered in New York City at 15 cents per quart; orders addressed to me will receive prompt attention.

Cures While You Sleep,

Whooping Cough,
Asthma, Croup,
Colds,

Vapo-Cresolene

Catarrh,
Bronchitis...

An antiseptic, antispasmodic and prophylactic, to be vaporized for the treatment of **Whooping Cough, Croup, Bronchitis, Asthma, Diphtheria** and kindred diseases of the throat and air passages.

It takes time to prove the value of a remedy; CRESOLENE has twenty years behind it and the assurance of a vigorous and growing demand, besides the personal acknowledgment of many physicians that it is the best remedy, particularly for **Whooping Cough and Croup**, ever introduced. The application of CRESOLENE is simplicity itself. The Vaporizer acts from five to six hours without attention. The patient simply breathes the medicated air of the room. The treatment being by inhalation does away with the necessity of waking the patient, which, in itself, is of sufficient importance to warrant giving it a trial. **Cresolene may be used in connection with any other treatment**, and is used with success in the treatment of **Diphtheria, Scarlet Fever and Measles.** CRESOLENE is a product of coal tar, of much greater antiseptic power than carbolic acid. Send for descriptive booklet, containing physicians' testimonials and price list.

NOTICE.—Physicians will be allowed a liberal discount, express paid on first order, and money back if not satisfied.

EXAMINATIONS FOR LICENSE TO PRACTICE MEDICINE.

LAWS OF NEW YORK, 1893, CH. 661; § 145 ADMISSION TO EXAMINATION, AS AMENDED BY LAWS OF 1896, CH. 111, IS AS FOLLOWS:

The regents shall admit to examination any candidate who pays a fee of $25 and submits satisfactory evidence, verified by oath, if required, that he

1. Is more than 21 years of age;
2. Is of good moral character;
3. Has the general education required preliminary to receiving the degree of bachelor or doctor of medicine in this State;
4. Has studied medicine not less than four full school years of at least nine months each, including four satisfactory courses of at least six months each, in four different calendar years, in a medical school registered as maintaining at the time a satisfactory standard. New York medical schools and New York medical students shall not be discriminated against by the registration of any medical school out of the State, whose minimum graduation standard is less than that fixed by statute for New York medical schools. The regents may, in their discretion, accept as the equivalent for any part of the third and fourth requirement, evidence of five or more years' reputable practice, provided that such substitution be specified in the license;
5. Has either received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full right to practice medicine in some foreign country. The degree of bachelor or doctor of medicine shall not be conferred in this State before the candidate has filed with the institution conferring it the certificate of the regents that before beginning the first annual medical course counted toward the degree unless matriculated conditionally as hereinafter specified (three years before the date of the degree), he had either graduated from a registered college or satisfactorily completed a full course in a registered academy or high school; or had a preliminary education considered and accepted by the regents as fully equivalent; or held a regents' medical student certificate, granted before this act took effect; or had passed regents' examinations as hereinafter provided. A medical school may matriculate conditionally a student deficient in not more than one year's academic work or 12 counts of the preliminary education requirement, provided the name and deficiency of each student so matriculated be filed at the regents' office within three months after matriculation, and

that the deficiency be made up before the student begins the second annual medical course counted toward the degree. Students who had matriculated in a New York medical school before June 5, 1890, and students who had matriculated in a New York medical school before May 13, 1895, as having entered before June 5, 1890, on the prescribed three years' study of medicine, shall be exempt from this preliminary education requirement.

A medical student certificate may be earned without notice to the regents of the conditional matriculation either before the student begins the second annual medical course counted toward the degree or two years before the date of the degree for matriculants in any registered medical school, in the four cases following:

1. For matriculants prior to May 9, 1893, for any 20 counts, allowing 10 for the preliminaries, not including reading and writing;

2. For matriculants prior to May 13, 1895, for arithmetic, elementary English, geography, spelling, United States history, English composition and physics, or any 50 counts, allowing 14 for the preliminaries;

3. For matriculants prior to January 1, 1896, for any 12 academic counts;

4. For matriculants prior to January 1, 1897, for any 24 academic counts;

But all matriculants, after January 1, 1897, must secure 48 academic counts, or their full equivalent, before beginning the first annual medical course counted toward the degree, unless admitted conditionally, as hereinbefore specified, when the deficiency must be made up before the student begins the second annual medical course counted toward the degree.

This act took effect March 21, 1896, *except that the increase in the required course of Medical study from three to four years does not take effect till January* 1, 1898, *and does not apply to students who matriculate before that date and receive the degree of M. D. before January* 1, 1902.

Notes on the Preliminary Education Requirement.

The regents will accept as fully equivalent to the required academic course any one of the following:

(*a*) A certificate of having successfully completed at least one full year's course of study in the collegiate department of any college or university, registered by the regents as maintaining a satisfactory standard.

(*b*) A certificate of having passed in a registered institution examinations equivalent to the full collegiate course of the freshman year or to a completed academic course.

(*c*) A regents' diploma.

(*d*) A certificate of graduation from any registered gymnasium in Germany, Austria or Russia.

(*e*) A certificate of the successful completion of a course of five years in a registered Italian *ginnasio* and three years in a *liceo*.

(*f*) The bachelor's degree in arts or science, or substantial equivalent from any registered institution in France or Spain.

(*g*) Any credential from a registered institution or from the government in any foreign state or country which represents the completion of a course of study equivalent to graduation from a registered New York high school or academy or from a registered Prussian gymnasium.

Extracts from Rules.

Order of Studies.—There is no restriction in the order in which studies may be taken. Advanced students who have come from other states, or who, for other reasons, have not passed in elementary subjects, may take them at any time—*e. g.*, arithmetic after algebra or geometry. English composition after rhetoric, etc.

Time Limit.—There is no limit of time, but all credentials issued by the University are good till cancelled for cause. Studies necessary to obtain any credential may be passed at different examinations.

Notes on the Professional Requirements.

1. Seventy-five per cent. of correct answers is required in all subjects.

2. All subjects must be passed at the same examination.

Note.—When a candidate for license has been rejected in but *one* topic and his average is at least 80, at subsequent examinations he shall be examined only in the topic in which he originally failed to receive the required (75) percentage.

3. All examinations must be conducted in the English language.

4. Medical preparatory courses, as such courses are now taught in various scientific schools and colleges, cannot be accepted for one year of the medical study required by the law.

POWERS AND DUTIES OF COUNTY CLERKS IN REGISTERING LICENSES TO PRACTICE MEDICINE IN NEW YORK STATE.

The laws relating to registration of physicians by county clerks were repealed May 9, 1893, when the new law took effect. The law forbids the registration of any authority to practice medicine except a license or diploma issued or indorsed as a license under seal by the University of the State of New York, or (in case of removal to another county of a physician already licensed) a certificate clearly showing that the original registration was of an authority issued or indorsed under seal by the regents.

To provide against penalties for illegal registration, all other cases should be referred to the University of the State of New York, the only authority by which licenses can be issued after September 1, 1891.

Address all communications: Examination Department, University of the State of New York, Albany.

THE NEW YORK SOCIETY

FOR THE

RELIEF OF WIDOWS AND ORPHANS

OF MEDICAL MEN.

Instituted 1842. Incorporated April 18, 1843.

Annual members pay an initiation fee of $25, and $10 dues in semi-annual payments. Any person paying $100 at one time becomes a member for life, and $250, and upward, a benefactor. Members of the regular medical profession, residing in New York, Kings, Queens, Richmond and Westchester Counties, who are in good health, are eligible for election as members.

Persons Entitled to Relief: 1. The widow of a member whose income does not exceed eight hundred dollars per annum. If said widow shall marry again, her annuity shall cease. 2. Children of a member, males under sixteen and females under eighteen years of age and unmarried, and where the mother's income is not more than two hundred dollars per annum for each child respectively, in addition to the eight hundred dollars above mentioned. 3. Orphans of a member, males under sixteen and females under eighteen years of age and unmarried, whose income does not exceed two hundred dollars per annum. Every child, on arriving at the age when the annuity ceases, shall receive the sum of one hundred dollars as an outfit. In cases of prolonged ill health, or other extraordinary circumstances, the assistance granted to the surviving children of members may be extended beyond the limits of sixteen and eighteen years respectively. An aged mother, father or sister dependent on a member may receive assistance after a member's death. The marriage of the widow shall not invalidate the claims of the children to assistance from the Society. No one shall be entitled to claim assistance from the Society unless the person by virtue of whose membership the claim is made has been a member for the two years previous to his death.

Every widow of a member shall be entitled to four hundred dollars per annum, but for every ten dollars or multiple of ten dollars, of income, an amount fully equal to fifty per cent. of said income shall be deducted from the annuity. Every child entitled to relief shall receive one hundred dollars per annum, subject to the same reduction of fifty per cent. of income as above. When there are full orphans, then each case shall be specially investigated by the Standing Committee, and the amount fixed for every year, according to the circumstances of the case.

Total assets of the Society, October 6, 1898, $230,781.11.

OFFICERS.—D. Webster, Pres.; A. B. Judson, E. Herrick, J. D. Bryant, Vice-Pres'ts; A. F. Currier, Sec.; Henry Tuck, Treas.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the day of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

DO YOU KNOW

OF A LIFE INSURANCE COMPANY

That issues a policy Without Restrictions of any kind, and that is non-forfeitable and incontestable from date of issue? Also a Company that issues a Detailed Statement giving full details of all its investments, location and valuation of all Real Estate owned or mortgaged; name, rate of interest and value of every bond and stock owned or loaned on?

There is one such Company, and only one.

POSTAL INFORMATION.

POSTAL RATES.

UNITED STATES, CANADA AND MEXICO.

On *Letters* (and on all matter sealed or closed against inspection), two cents for each ounce or fraction thereof; on *Newspapers* and Magazines known as "Second Class Mail Matter," one cent for each four ounces; on *Circulars*, Books, Pamphlets, Business Cards, Hand Bills, Engravings, Chromos and other similar printed matter, one cent for each two ounces or fraction thereof; on *Merchandise*, one cent per ounce or fraction thereof, except Seeds, Cuttings, Roots, Plants, Bulbs and Coins, the postage on which is one cent for each two ounces or fraction thereof.

Mail matter to be sent from United States to persons connected with United States service in Cuba, Porto Rico, Hawaii, Philippine Islands, in order to be entitled to the domestic rates of postage, must be so addressed as to show the particular branch of the United States service to which the addressee belongs. It must be endorsed "Soldier's Letter or Mail" or "Sailor's Letter or Mail," or in such a way as to indicate the branch of service to which the writer belongs, and be signed thereunder with his name and official designation by a field or staff officer, post or detachment commander, to whose command the soldier belongs, or by a surgeon or chaplain at a hospital where he may be; in the navy or marine service, by the officer in command of the vessel or surgeon on board, or officer commanding naval hospital or detachment on shore, and in other branches of the service by the person in charge of the branch to which the sender belongs. In case it is impracticable to secure endorsement by such officials, the postmaster at the mailing office may sign such matter officially in like manner and dispatch it, provided the senders are known to be connected with the United States service.

GREAT BRITAIN, IRELAND, GERMANY, FRANCE, ITALY, SPAIN, AUSTRIA, RUSSIA, AND ALL OTHER COUNTRIES BELONGING TO THE UNIVERSAL POSTAL UNION.

On *Letters*, five cents for each half ounce; on *Newspapers* and other printed matter and on samples of merchandise (nothing of salable value allowed), one cent for each two ounces or fraction thereof. *International Postal Cards* can be sent to all European and most other foreign countries. To Canada and Mexico domestic rates apply.

Do not send money by mail except in Registered Letters or by Money Orders.

Parcels Post Convention between Bahamas, Barbadoes, Columbia, Costa Rica, Danish West Indies, Hawaii (British), Honduras, Jamaica, Leeward Islands, Mexico, Salvador, British Guiana, Windward Islands, Newfoundland, Republic of Honduras, Trinidad, Chili, Germany and Guatemala.

All mail matter passing between the United States and Porto Rico, Guam and the Philippine Archipelago, or between these island possessions of the United States, shall be subject to the domestic classifications, conditions and rates of postage.

United States domestic classification, conditions and rates of postage shall apply to all mail matter sent by or addresed to persons in the United States service (military, naval or civil) in Cuba or Hawaii, provided,

That such mail matter sent by persons in the United States service in Cuba or Hawaii to be entitled to said rates of postage must be endorsed so as to show the branch of the service to which the sender belongs, as soldier's letter (or mail), sailor's letter (or mail), and when sent by a civil employee, postal service letter (or mail), customs service letter (or mail), etc.

That such mail matter addressed to persons in the United States service in Cuba or Hawaii to be entitled to said rates of postage must bear in addition to the name of addressee the complete designation of the organiza-

tion, company or regiment, vessel or other branch of the service to which the addressee at the place of address belongs, and the postage thereon must be fully prepaid.

That letters from soldiers, sailors or marines in the United States service in Cuba, Porto Rico, Hawaii, Guam and the Philippine Islands, addressed to places in the United States, when endorsed, soldier's, sailor's or marine's letter may be despatched to destination without prepayment of postage, and only single rate of postage shall be collected on delivery.

That letters emanating from American National Red Cross Society, addressed to persons connected with the hospital service of that society in Cuba, when bearing on the face of the envelope the printed words Red Cross Hospital Service (not excluding other printing which the society may desire to have appear), shall be transmitted in the mails at the United States domestic rate of postage, and that letters from the Red Cross Hospital Service in Cuba, bearing the words above indicated and addressed to the Red Cross Society in the United States, or to the officers thereof, shall be entitled to transmission in the mails at the United States domestic rate of postage.

That the registration fees shall be eight cents in all cases, in addition to the lawful postage, domestic or Postal Union rates.

SPECIMENS OF DISEASED TISSUES.

Specimens of diseased tissues may be admitted to the mails for transmission to United States, State or municipal laboratories only when endorsed in mailing packages constructed in accordance with the specifications hereinafter enumerated.

Liquid cultures or cultures of micro organisms in media that are fluid at the ordinary temperature (below 45° C. or 113° F.) are unmailable. Such specimens may be sent in media that remain solid at the ordinary temperature. Upon the outside of every package shall be written or printed the words "Specimens for Bacteriological Examination." This package to be treated as letter mail. The receptacle for moist specimens of diseased tissues shall be a strong glass vial or test tube having a capacity not greater than two drams. Said vial shall be covered and made water tight by use of a metal screw cap, and a rubber or felt washer, which has been immersed in melted parafine, or if a test tube be used, it shall be covered with a tightly-fitting rubber cap.

2. Said vial or test tube shall be placed inverted in a circular tin box. Said box shall be made of I. C. bright tin plate and shall have a flush or countersunk bottom, soldered joints, and not be smaller than 1⅛ inches in diameter and 3 inches long, nor larger than 2¼ inches in diameter and 3½ inches long. This box shall be closed by a metal screw cover and a rubber or felt washer or tightly fitting metal sliding cover, and it shall be so placed with absorbent cotton that the glass or test tube in said tin box shall be evenly surrounded on all sides by cotton, and the cotton shall be closely laid.

3. Said tin box shall be placed inverted inside of a larger tin box similar to the one already described, which should snugly receive the specimen box. Upon the inside of the sides and bottom of this outer box there shall be a lining of compressed paper not less than 3-16 of an inch in thickness. Said outer tin box shall be closed by a metal or screw cap, and a rubber or felt washer, or this box may consist of hardwood, being a block with a cylindrical hole bored in one end and extending to within not less than one inch of the opposite end, the open end to be closed with wooden or metal screw cap with a rubber or felt washer or the outside tin box may be a cylindrical wooden box, having a screw cap or washer. The thickness of the sustaining part of the wooden tube to be not less than one-quarter inch and be lined same as tin box.

4. Receptacle for dry specimens of diseased tissues shall be a glass test tube 3 inches in length and one-half inch in diameter. Said test tube shall be enclosed in a circular tin box similar to those already described,

but measuring 2¼ inches in diameter and 3½ inches in length, and be lined upon its sides and bottom with compressed paper not less than one-quarter inch in thickness. Said box shall be closed by metal screw cap and rubber or felt washer. Said test tube shall be closely packed in cotton.

STAMMERING

The Bryant School for Stammerers,

For the Correction of Stammering and other Affections of Speech where Drill in Articulation and the Technique of Speech are indicated.

AS much of the speech apparatus is under control of the will, considerable may be done for those who suffer from speech defects by a careful training of the respiratory, vocal and articulating organs. This training is given under the direction of a physician of many years' experience. The profession may rely upon having the best treatment known for those who apply to them. Such remedies for nervous and physical conditions as directed by the patient's physician may also be used. Patients may live in the doctor's house and have his constant care. The new location near Central Park is very quiet, healthy, and accessible. The circular, "How We Treat Stammering To-day," giving outline, information and references from eminent men and pupils, sent to any address mentioned.

SECRETARY OF FACULTY,
Long Island College Hospital, Borough of Brooklyn,
NEW YORK CITY.

CORNELL UNIVERSITY MEDICAL COLLEGE,

NEW YORK CITY.

THE Session of 1900–1901 will begin Tuesday October 2, 1900, and will continue about eight months. The course of instruction covers four years. Students who present credentials from other accredited medical colleges of full courses of study will be admitted to advanced standing after passing examinations on those subjects the study of which has been completed in the previous years.

In conjunction with the regular curriculum there is an optional Summer Course in operation during the months of May, June and July, in which any student or post-graduate may select clinical work which is distributed among some fifty dispensaries and hospitals. At the same time, if desired, lessons taught by recitations may be taken in Anatomy, Surgery, Medicine, Obstetrics, Materia Medica, Physiology and Chemistry.

The ESSENTIAL FEATURES OF THE CURRICULUM are: 1. Recitations in sections throughout all years and on all the principal branches. 2. Thorough Laboratory instruction. 3. Clinical and bedside section teaching and clinical ward work, with the Professors and Clinical Professors, in small groups in Bellevue, New York, Presbyterian, Mothers' and Babies', and other city hospitals 4. Special branches taught clinically to small groups in hospitals and dispensaries.

Cornell University announces the establishment, as a department in its Medical College, of a School of Practical Hygiene and Sanitary Science. There will be two courses annually, each of six weeks' duration, which will be conducted with reference to the special needs of Health Officers throughout the country. The Spring course will begin on the third Tuesday in May and continue for six weeks. The Fall course will begin on the first Tuesday in October and continue for six weeks.

The full Four-Year Course of the Cornell University Medical College is given in the city of New York, but the first half of it—the work of the first and second years—is also given at Ithaca, where it may be taken by men students, and where alone it can be taken by women students (for whom a home is provided in the Sage College for Women). Both men and women students must take the last two years of the course in New York city.

The circular for 1900–1901, giving the Faculty, full details of the curriculum, requirements for admission, and other information, will be sent on application.

NEW YORK-AMERICAN VETERINARY COLLEGE

College Building, 141 West 54th Street,

NEW YORK CITY.

HOSPITALS: 141 West 54th Street, 154 East 57th Street.

The union of the New York College of Veterinary Surgeons and the American Veterinary College and the adoption of the consolidated institution as a School of the New York University was accomplished in 1899. The purpose of the change was not only to promote the best interests of the schools and of their alumni, but more especially to advance the standard of veterinary education.

The new institution with its enlarged Faculty, composed entirely of experienced teachers, its increased and abundant clinical resources, and its regular use of the extensive laboratory equipment and advanced instruction of the University and Bellevue Hospital Medical College, is enabled at once to offer the means for the attainment of a thorough veterinary education.

The system of instruction embraces a thorough Didactic and Clinical Course of three years' attendance. The American Veterinary Hospital, which is a branch of the College, has treated since its opening over 50,000 cases. It is utilized for the clinical instruction of matriculates, and affords unrivalled facilities.

The regular term opens in the beginning of October and closes at end of March. For further information or catalogue, address A. LIAUTARD, M.D., V.M., Dean of the Faculty, 141 West 54th Street.

REQUIREMENTS FOR GRADUATION.

Students must, as required by law, have reached the age of twenty-one years, and must file satisfactory certificates of good moral character and of three years' study of veterinary medicine.

They must have filed with the Secretary of the Faculty the Regents' Veterinary Students' Certificate as evidence of having complied with the requirements for admission.

Candidates are examined on the following subjects: Anatomy, Theory and Practice of Veterinary Medicine, Veterinary Surgery, Pathology, Diseases of Cattle, Obstetrics, Helminthology and Canine Diseases.

Bensolyptus

Alkaline Antiseptic and Prophylactic.

Bensolyptus is an agreeable alkaline solution of various highly approved antiseptics, so combined that one supplements the action of the other. Its ingredients are all of recognized value in the treatment of

Catarrhal Affections

because of their cleansing, soothing and healing properties. Bensolyptus is highly recommended in all diseases of the nose and throat, both acute and chronic, and as a mouth-wash and dentifrice. It is also indicated for internal use in affections of the stomach and intestines where an agreeable, unirritating, and efficient antiseptic and antifermentative is required.

AND SURGICAL DRESSING.

Warm, then spread about the thickness of a silver dollar on the skin over the inflamed part and cover with cotton or heavy cloth. In from 12 to 36 hours it will peel off nicely, like the peel from a banana.

Antiphlogistine's greatest mission is accomplished through its hygroscopic power, its ability to favorably affect the circulation wherever it is abnormal.

In pneumonia, pleurisy, peritonitis and inflammation of other internal organs, Antiphlogistine, applied liberally and hot, hugs the skin closely and the desired heat is uniformly maintained for from 24 to 36 hours, while at the same time the watery part of the blood is being brought to the surface, thus relieving the deep-seated congestion, consequently the pressure and pain.

Antiphlogistine rapidly draws out or absorbs the liquid exudate from boils, felons, erysipelas, inflamed glands, leg ulcers, and other localized inflammations, relieves the pain and permits the restoration of the circulation.

Upon receipt of 25c. (to pay expressage) from any practicing physician who has not received a sample a 1-lb. sample can, with literature, will be sent free.

FAIRCHILD BROTHERS & FOSTER

ESSENCE OF PEPSINE (Fairchild)

The original Essence of Pepsine;—the most useful and the most prescribed of all preparations of the gastric juice.

Fairchild's Essence of Pepsine is of peculiar value for three distinct purposes:

As a remedy for indigestion, both in adults and children:

As a means of administering drugs which disturb the stomach and impair digestion:

As a practical rennet agent.

PANOPEPTON

The entire nutritive constituents of beef and wheat in a soluble and freely absorbable form.

A nourishing, restorative, stimulant, liquid food of incomparable value for the nutrition of the sick.

PEPTOGENIC MILK POWDER

By means of the Peptogenic Milk Powder cows' milk is so modified as to conform in every particular to normal mothers' milk, thus affording a food competent for the nourishment and development of the nursing infant.

ENZYMOL

A physiological solvent—converts pus, necrosed bone, blood coagula, muco-pus, etc., into solution by virtue of its proteolytic power. Enzymol works down to the normal tissue, where its action ceases. It is potent, painless and harmless and is effective in all situations where it can be brought in contact with the septic matter.
